Brand	Milwaukee
Size	12V
Dimensions	
Product Weight (Net Weight)	3.2 kg
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The M12 AIRSNAKE Drain Cleaning Air Gun is the industry's first drain cleaning machine designed to clear through drain covers and traps with powered air. The M12 AIRSNAKE allows users to clear clogged drains while leaving fixtures and drain covers intact. Designed for 2.54-10.16cm drain lines, the M12 AIRSNAKE has the power to clear up to 10.6 meters, past vent stacks and tees while the variable pressure dial allows for control on delicate pipe systems. Powered air flushes water out of pipes, completely removing grease and sludge from pipe walls. With the ability to work over sinks and eliminate retrieval mess, Drain professionals, plumbers, and facility maintenance will be able to work faster when clearing clogs. The M12 AIRSNAKE is powered by REDLITHIUM-ION batteries, which deliver more work per charge and more work over pack life than competitors. REDLINK Intelligence provides optimised performance and overload protection against abusive situations. **Features:**

- Clears through drain covers & traps with powered air
- Instantly reach Clogs 10.6m out
- Removes grease & sludge from pipe walls
- Up to 50 PSI for tough clogs down the line
- Power to clear clogs past vent stacks
- Variable pressure control to select the right PSI for compression fittings and older drain lines
- Optimised attachments for sinks, toilets, floor drains
- Over 25 pressure cycles on a single charge
