These 58-2089 Jamec Pem Pro Series 20M Hose Reels feature a unique helix ultra-coil self-layering hose system which when combined with the precision machined solid brass central spindle make them incredibly durable & ideal for professional use. They are made from a high impact polypropylene construction which is weather resistant & UV stabilised. The auto lock & rewind mechanism provides a positive hose latching every full revolution of the hose drum. The hose is made from reinforced braided PVC & has a maximum working pressure of 300PSI. **Features:-**
