MILWAUKEE SHOCKWAVE Impact Duty Titanium Drill Bits with RED HELIX are engineered for impacts and drills. Designed with a Variable Helix with an aggressive 35 ° Helix Angle which ends at 15 °, the Impact Duty Titanium Drill bits with RED HELIX provide Rapid Chip Removal to limit heat buildup to stay sharper longer. The 135 ° split point tip delivers a precision start and prevents walking for fast, accurate holes. Titanium coating can be used in all drilling applications to give you up to 3x life vs. Black Oxide Drill Bits. **Features:-**

- 135 ° Split Point Tip - Drill bit starts engaging the material on contact for fast starts. Drill bit does not walk across material.
- Variable Helix™ - Provides a solution to cutting vs clearing material removal problem. Allows for fast and efficient material ejection to reduce heat.
- Chip Breaker™ - Splits up the size of the material from the cutting edge. Cools the material faster by breaking it into small pieces.
- Productivity - Suitable for use in drills and impacts. Offers increased productivity when drilling and fastening.
- Titanium Coating - For up to 3x Life vs. Black Oxide
