The TradeQuip "Made for the Trade" Garnet Blasting Media Abrasive is designed for use in conjunction with our TradeQuip Mobile Blasting Kits and Blasting Cabinets. Garnet is a gemstone with excellent naturally abrasive properties. This hard abrasive is fast-cutting, low-dust producing and low-consuming, ideal for removing tough coatings, paint, rust and mill scale from steel. Garnet also permits precise feathering control. A good general outdoor surface preparation abrasive. It has been specified for use with TradeQuip "Made for the Trade" blasting equipment.

Features:-

- Fast removal of medium rust and paint
- Low consumption rate
- Ideal for tough coatings and removing mill scale
- Used for general outdoor surface preparation
- Ideal for preparation of most automotive and industrial coatings
- Widely used for car panel sandblasting, machinery cleaning, parts restoration

Specifications:-

- Mesh: 30/60 Micron
- Shape: Sub Angular
- Hardness: 7.0 - 7.5 MOHS
- Density: 3.5-4.3 SG

Options:-

- 1,000kg Bulk Quantity ALSO AVAILABLE for Specialists - Product Code 3021T-1000

NOTE: We recommend the use of personal protective equipment. Always wear a respiratory filter or mask over your mouth when operating an abrasive blasting unit. You will create a cloud of abrasive media material and debris which should not be inhaled
