## 25KG BAG OF STEEL BLASTING MEDIA ABRASIVE 30/60 3026T BY TRADEQUIP

SKU	Option	Part #	Price
8723624		3026T	\$151

<b>Model</b>	
Type	Sand Blasting Sand / Media
SKU	8723624
Part Number	3026T
Brand	Tradequip
Size	25Kg
<b>Technical - Main</b>	
Colour Name	Grey
Material	Steel
<b>Dimensions</b>	
Product Weight (Net Weight)	25 kg
<b>Packaging + Shipping</b>	
Shipping Weight (Gross)	25.0 kg
Forklift / Tail Lift to Unload is Highly Recommended	✓
Shipping Notes	This product is classified as 'Heavy / Oversized' and generally does not qualify for FREE SHIPPING.

The TradeQuip "Made for the Trade" Steel Grit Blasting Media Abrasive is designed for use in conjunction with our TradeQuip Mobile Blasting Kits and Blasting Cabinets. Steel grit offers a more angular shape and sharper texture. It can be used to remove rust, paint or scale from steel surfaces. Steel Grit works well in many tough applications such as railway maintenance, structural steel and in foundries. Steel Grit Abrasive Media is made up of sharp cutting angular particles that clean by cutting and etching into the surface which usually results in an etched surface with well defined anchor pattern. Steel Grit can also be used in blasting cabinets for surface preparation as its sharp edge will gradually round over as the abrasive is recycled. The durability and resistance to impact fatigue of Steel Grit provides maximum cleaning efficiency at the most economical cost. It has been specified for use with TradeQuip "Made for the Trade" blasting equipment. **Features:-**

Fast removal of medium/heavy rust and paint from steel surfaces

Works well in tough applications

Results in an etched surface with well defined anchor pattern

Durability and resistance to impact fatigue

Ideal for deep descaling and etched surface requirements

Widely used for car chassis blasting, machinery cleaning,

parts restoration

**Specifications:-**

Grit: 30/60 Micron

Shape: Sub Angular

Hardness: 7.0 - 7.5 MOHS
