Brand	Gearwrench
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The GEARWRENCH mini screwdrivers design is ideal for speed and access. The dual-material handles provide comfort and enhanced performance, while the Tri-Lobe ergonomic feature gives the user the optimal balance of strength and efficiency. The "Speed Zone" on the handles allows you to rotate the screwdriver with ease in lower-torque applications. The screwdriver's black oxide coating delivers a safe, non-slip grip when working on delicate projects. A combination of color-coded caps, laser-etched sizes, and highly-legible part numbers on all screwdrivers indicate their tip style.

Features

Ergonomic tri-lobe dual material handle provides the optimal balance of strength and efficiency

"Speed Zone" handle design for faster rotation in low-torque applications

Dual material handle offers a more comfortable grip and higher performance

Non-Slip black oxide tip for more secure fit in fastener

Oil and solvent resistant handle provides a longer tool life

Blades laser etched with part number and size for quick identification

Color coded caps indicate tip style for faster, more efficient use

Meets or exceeds ASME standards for performance and quality
