

100M LASER DISTANCE MEASURER 4933459278 BY MILWAUKEE

SKU	Option	Part #	Price
8723984		4933459278	\$225

Model	
Type	Laser Measure
SKU	8723984
Part Number	4933459278
Barcode	4058546002442
Brand	Milwaukee
Size	100m (330')
Technical - Main	
Laser Colour	Red
Features	
Standard Inclusions	Carry Pouch
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Milwaukee 100M Laser Distance Measurers are designed to provide the easiest measurements from all orientations and feature an array of new functionality such as intuitive user interfaces, 3-position auto-detecting levers and an industry-first digital auto-level. 2" colour screens offer maximum visibility in low light conditions. Each features a simplified user interface that has been designed from the ground up for fast navigation so users can quickly choose their function and take a measurement with minimal downtime. Exclusive to the Milwaukee 100M Laser Distance Measurer is the digital auto-level feature. This new functionality allows for a measurement to be automatically when the meter reaches a level position, increasing accuracy when measuring long distances. For additional ease of use, the 100M solution provides a 3-position auto-detecting lever that allows for measurements from corners and edges. Each 100M Laser Distance Measurer offers several different measurement functions that allow users to add and subtract values and calculate linear distance, indirect height and length, surface area, total area and volume. In addition, each tool includes memory storage for 30 readings and impact-resistant overmold for protection from tough jobsite conditions. Milwaukee Laser Distance Measurers also feature a side shot button for an easier, more ergonomic experience when measuring in all directions. **Features:-**
 2" Colour Screen: Maximum visibility in low light conditions
 Intuitive User Interface: Designed from the ground up with the user in mind for maximum utilisation of features
 Side Shot Button: Ergonomic to use in all directions
 Digital Auto Level: Ensures accuracy at long distance
 3-Position Level w/ Auto Detect: Easy measurements from corners and edges
 Metal Thread Tripod Mount: Durable thread for repeated use
