Packaging + Shipping	
Shipping Weight (Gross)	0.3 kg

Light your way through the night. The COAST EAL17 Emergency Area Light combines the best recreation-style lantern lighting with an emergency mode for signaling under duress. Featuring a 4-mode smart switch, this high-output area light fills the surroundings with up to 580 lumens of multi-mode light in two colors—white and red. For emergencies, the flashing red option catches the eye quickly in a call for help, and a 31-hour run time means you have 2+ nights of light on one set of batteries. Stand the light on its base, carry it by the swinging handle, or hang it from the easy-stow hook integrated into the handle. Constructed of high-strength nylon and polycarbonate with a stainless steel outer cage, the impact-resistant EAL17 makes nights brighter, safer, and more fun. With Coast's commitment to quality, the EAL17 Lantern is impact-resistant and weather resistant, and its LEDs are virtually unbreakable. The EAL17 Lantern is backed by Coast's five-year warranty against defects in materials and workmanship.
