Brand	Coast
Technical - Main	
Lumens	460 Lumens
Water Protection Rating	IPX4
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The PX1R adds a rechargeable element to our popular PX1 model. With our Flex Charge Dual Power system, this light harnesses either lithium or alkaline power and using a micro USB. A USB insert on the battery and tail cap allows for the recharging of the batteries either inside or outside of the light. Equipped with our Pure Beam Focusing Optic with Twist Focus, users can shift between a super wide flood beam or spot mode with transition halo at varying distances and brightness all controllable with a simple twist. While in flood mode, the light casts a huge circle of light that is equally bright across without any dark spots. Then twist it into spot mode, and the light will reach far downrange with a transition halo that allows for a large viewing area surrounding the tight spot beam. Add a reversible clip to either secure in your pocket or attach to the bill of your hat, and you have ultimate versatility. With Coast's commitment to quality, the PX1R Torch is impact resistant, weather resistant and its LED is virtually unbreakable. The PX1R Torch is backed by Coast's lifetime warranty against defects in materials and workmanship. Tested and rated to ANSI/FL1 standards. The PX1R includes one lithium ion rechargeable battery pack and one alkaline battery cartridge (with 3 AAA batteries). The rechargeable battery pack can be charged either inside or outside the torch, assuring that you're never out of power. With the AC adapter connected via a USB cable (included), charging can be done in diverse locations.

	High	Low
