Part Number	COAPM500R
Barcode	015286210746
Brand	Coast
Technical - Main	
Material	Chrome Plated Steel
Packaging + Shipping	
Shipping Weight (Gross)	0.3 kg

Pack bold lighting power, and take your pick of power sources. The COAST Crew PM500R, a special design for our loyal members, offers three ways to power your go-to work lighting. Shining up to 700 lumens at 672 feet, the light operates with a COAST ZITHION-X™ rechargeable battery (charging cable included) or standard alkaline batteries but can also be plugged directly into an outlet with the included AC/DC adapter. Outfitted with our PURE BEAM® twist-focusing system inside a 180-degree-rotating optic, the PM500R seamlessly transitions between Ultra View Flood Beam and BULLS-EYE™ Spot Beam in high or low output mode. The rubberized magnetic base creates a secure mount on flat and uneven metallic surfaces alike. Built to IP54 specifications, this work light is dust resistant and stormproof to stay bright even in adverse conditions. With Coast's commitment to quality, the PM500R is impact-resistant, weather-resistant and its LED is virtually unbreakable. The PM500R is backed by Coast's lifetime warranty against defects in materials and workmanship. Tested and rated to ANSI/FL1 standards.
