Shipping Weight (Gross)	1.48 kg

The MILWAUKEE M12 AXIS Heated Women's Jackets are designed to protect from cold and weather on the jobsite. Powered by M12 REDLITHIUM Battery Technology, these heated jacket kits use carbon fiber heating elements to create and distribute heat to the chest, back and shoulders. A single touch LED controller heats up the battery heated jacket to three heat settings, creating a comfortable heat for any environment. M12 AXIS Ripstop Polyester provides a lightweight, compressible design that can be used as an outer shell or a mid-layer jacket, and protects from wind and water.

Up to (8) hours of run-time with M12™ REDLITHIUM™ 2.0 Compact Battery Pack

Washer and dryer safe

Compressible design makes layering comfortable and easy.

One-touch LED controller with (3) heat settings per heat zone

Heating Zones: Chest, Back and Shoulders

100% Polyester insulation keeps heat in, doesn't add bulk

Wind and Water Resistant

Reinforced high-wear zones protect from abrasion and tears

Adjustable waist with drop tail extended back
