1 x Metabo18VASC 55, 12-36 V Charger **Features:-**

Monitored charging with microcontroller
 Battery diagnosis
 Charge time approximately 30 minutes at 1.5 Ah
 "AIR COOLED" function
 For charging all Li-Power Compact, Li-Power Plus, Li-Power Extreme battery packs
 For charging all Li-Ion & LiHD slide-on battery packs (12 V - 36 V) with adapted battery pack charging current
 Charger switches to compensation charge: to conserve the capacity, the battery pack is charged for 1 second every 45 seconds with 2.5 ampere.
 "AIR COOLED" function: the patented principle is based on air-cooling the battery pack during the charging process. The battery packs are gently cooled down to the required charging temperature, & then during the charging process are constantly maintained at optimum temperature. With this principle, a higher tool life of the battery packs & up to 30% shorter total charging time can be achieved.
