

184MM (7-1/4") X 20MM X 40T CIRCULAR SAW BLADE SUIT FINE FINISH (IN HANG SELL PACK) 48408726 BY MILWAUKEE

MILWAUKEE's wood cutting blades maximise life and cutting efficiencies to improve your productivity. An anti-friction coating keeps the blade cool while cutting and resists corrosion & gumming. Laser cutting technology creates the blade from 100% sheet steel to ensure a stable blade that increases cutting accuracy. Laser cut vibration slots minimise wobble and warping during use. A thin kerf design delivers faster cuts as well as more cuts per charge when using a cordless tool. Finally, MILWAUKEE Fine Finish circular saw blades have an Alternate Tooth Bevel (ATB) pattern to minimise tear out and leave a clean cut.
