210MM (8-1/4") X 30MM X 24T CIRCULAR SAW BLADE SUIT RIPPING / FRAMING (IN HANG SELL PACK) 48408820 BY MILWAUKEE

SKU	Option	Part #	Price
8725592		48408820	\$44.8

Model	
Type	Circular Saw Blade
SKU	8725592
Part Number	48408820
Barcode	045242549290
Brand	Milwaukee
Size	210mm (8-1/4")
Technical - Main	
Blade Kerf	2.1 mm
Blade Hook Angle	22°
Teeth	24T
Technical - Saw	
Blade (Main) - Bore Size (mm)	30mm
Blade (Main) - Diameter (Max.)	210 mm
Features	
Standard Inclusions	5/8" Bore Reduction Ring / Bush
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

MILWAUKEE's wood cutting circular saw blades maximise life and cutting efficiencies to improve your productivity. An anti-friction coating keeps the blade cool while cutting and resists corrosion & gumming. Laser cutting technology creates the blade from 100% sheet steel to ensure a stable blade that increases cutting accuracy. Laser cut vibration slots minimise wobble and warping during use. A thin kerf design delivers faster cuts as well as more cuts per charge when using a cordless tool. Finally, MILWAUKEE Ripping circular saw blades have an aggressive tooth geometry to bite into material and pull it into the teeth, increasing the speed of cut.

Features:-

Anti-Friction Coating for cooler cuts whilst resisting drag, corrosion and gumming.

Cobalt Infused Tungsten Carbide extends the cutting life and maintains the tip sharpness.

Laser Cut Vibration Slots minimise wobble and warping.

Aggressive Tooth Geometry bites into material and pulls towards the fence, increasing speed of cut.

Universal Arbor System includes reduction rings to fit most circular saws.

Optimised for corded and cordless performance.
