Barcode	4892210183521
Brand	Milwaukee
Dimensions	
Product Weight (Net Weight)	3.5 kg
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Our M18™ Brushless Threaded Rod Cutter is Milwaukee's dedicated solution for cutting the most common threaded rod sizes (M6, M10, M8 and M12) on the jobsite. The cordless threaded rod cutter is powered by a brushless motor and delivers 400+ cuts while powered by an M18™ REDLITHIUM®-ION 2.0Ah Battery. The four-sided cutting dies allow you to cut multiple sizes of threaded rod on one tool by simply rotating the dies. The rod cutter has the clearest line of sight and delivers clean, burr-free cuts enabling you to thread a nut on by hand without having to file down the ends. The rod cutter features optimised blade geometry and cut speed to prevent chips and sparks while cutting. It has auto jaw opening allowing you to perform fast, repetitive cuts while a reverse button helps prevent unintended cuts. Its centred grip provides the best balance for one-handed overhead trims, while the flat horizontal design provides you with a stable surface for benchtop cuts. **Features:**

Provides quality, burr-free cuts ready for threading  
Allows efficient repeated cuts in stationary and overhead applications

Reverse button to back out of unintended cuts

**Includes:**

(1) M18™ Threaded Rod Cutter [M18BLTRC-OX]

(1) Cutting Die Set (2 dies)

(1) Threaded Rod Cutter (Tool Only)

(Not included) Battery and charger
