Product Weight (Net Weight)	1.96 kg
<b>Packaging + Shipping</b>	
Shipping Weight (Gross)	1.96 kg

The Rugged Xtremes Offshore Crew Bag is a heavy-duty, weatherproof bag made from durable PVC material, designed for use in harsh marine environments. With multiple compartments and adjustable straps, this bag is the perfect choice for offshore workers and anyone who needs a reliable and secure solution for carrying their gear.

If you work offshore you'll definitely get to know this bag! If not, maybe it's time to have a word to your procurements division

This customized Offshore Crew Bag has been designed with one very special purpose - to get you and your gear on and off the rigs with ease.

Suited and designed around Australian oil and gas operations, our transit bag features a large main compartment for the bulk of your gear, with two isolated side pockets for your PPE kit of dirty laundry.

The stash pocket on the front works perfectly for your wallet, keys, and passport. PVC construction and waterproof zips throughout make this bag weatherproof, although we do not class it as a 100% waterproof bag.

Waterproof 1000d, 640gsm, laminated PVC vinyl

Rubberized waterproof zippers

Large easy access panels for embroidery
