The EZESharp Blade Sharpener is capable of sharpening almost any blade BIG or small:

Kitchen Knives

Butchers Knives

Filleting Knives

Pocket Knives

Serrated Blades

Cleaver's *

Gardening Shears *

Wood Chisels & Plane Blades *

Hair Dressing & Dress Making Scissors and many other items

*

Note: * The optional Wedge attachment is recommended when sharpening these styles and sizes of Blades.

EZESharp Blade Sharpener works by clamping the blade to be sharpened in a rotatable vice-like clamping jig with Degree Angle Adjustments. Various abrasive stones, files or diamond stones can be used, resulting in no loss of temper in the blade. A T-Bar guide holds the abrasive at a very accurate angle in relation to the blade being sharpened, while allowing the operator total control over movement and pressure put on the edge being sharpened. All this takes the guesswork out of sharpening "every time! The result is an edge so sharp and strong the professionals acclaim this a superior method of sharpening. **The EZESharp Blade Sharpener is available with either the 100mm Flip Over or Wedge Configuration.**
