This compact powerhouse offers an impressive service life thanks to its extremely robust hammer mechanism. The perfect combination of the new generation brushless EC-TEC motor and the battery pack ensure maximum performance and endurance. In addition to this, the TID 18 with 1/4" tool holder turns the screw without straining your wrist – thanks to the tangential hammer mechanism with no strength sapping back torque. The machine weight of just 960 grams also allows you to work for longer without becoming tired.
