Standard Inclusions	*Jack Hammer and attachments are not included and are sold separately.
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The fastest, safest way to remove tiles and thinset! The Jack Hammer trolley lets you remove ceramic tiles, thinset, cork, and vinyl tiles up to six times faster than any other method. Nothing beats it for speed and efficiency. The Makinex Jackhammer Trolley is an innovative demolition tool for the fast and easy removal of floor tiles, vinyl and cork from concrete and wooden surfaces. It can also be used to remove residue from tile beds and for breaking rocks, blocks, concrete and sandstone. The Makinex Jackhammer Trolley quickly removes floor tiles with some customers claiming they can do their demolition job up to 6 times faster than when using a jackhammer alone.

No more struggling or bending trying to handle heavy jackhammers! The Makinex Jack Hammer Trolley carries most of the weight of the jackhammer while the user positions themselves behind the trolley and pushes it along. The ergonomic design minimizes vibration impact on the user and provides safer jackhammer operation by reducing back strain and operator fatigue. The Makinex Jack Hammer Trolley can be adjusted to 6 different positions, ranging from 20-80 degrees to suit most demolition jobs, making using a jackhammer and your demolition job easier, faster and safer.

*Jack Hammer and attachments are not included and are sold separately. **Suits:-**
