Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The **Tradequip "Made for the Trade"** moveable, Hydraulic Scissor Lift Table can position and raise your work piece up to 875mm by simply pumping on the foot pedal to the desired height. Features include a hand release lever to safely lower a heavy piece of work and two locking swivel castors to ensure stability once the scissor lift table is shifted into position. This piece of equipment is ideal for any garage, workshop or parts warehouse dealing with heavy parts such as engine blocks, large cylinder heads, diff housings and transmissions!

This **"Made for the Trade"** 6003T Scissor Lift Table has a 450kg Safe Working Capacity and is fitted with wheels, designed to carry that weight with sealed bearings and polyurethane tyres, to ensure heavy loads can be transported smoothly and precisely, to and from the work area. Manually lift this work table ergonomically via the hydraulic operated foot pump which efficiently elevates the table top reducing strain and fatigue from having to bending over. Easy to elevate with the convenient hydraulic foot pump and easy to lower... via the release lever on the handle to go down in a controlled manner. In addition, this 6003T scissor lift table can be used as a convenient mobile work bench so you can work at different heights to reduce the risk of back injury. Our manual hydraulic scissor lift table is ergonomically designed
