Constructed of heavy-duty powder coated steel for durability, the **TradeQuip "Made for the Trade" Engine Support Bars** are a must when working on under the bonnet repairs such as removing the transmission or transaxle. This 1019T Engine Support Bar comes with adjustable extension arms, neoprene support pads and adjustable height screw. Designed to support and accurately position engines during maintenance operations such as replacing engine/transmission mountings and certain body panels, the rubber padded support legs prevents slippage as well as protecting the paint.

### Features:-

- Adjustable to fit across most car bonnets
- Supports engine or transmission in place during repairs
- Rubber cushioned support legs prevent damage to paint
- Powder coat finish
- Adjustment screw for load levelling
- Supplied with a short length of chain

### Specifications:-

- Safe Working Capacity: 500kg
- Minimum Extension: 1020mm
- Maximum Extension: 1600mm
- Carton: 1030 x 200 x 80mm
