MIG WELDER (GASLESS) WF-141GL 140AMP WF-06177 *BUNDLE* BY WELDCLASS

SKU	Option	Part #	Price
8727171		WF-141GL	\$449

Model	
Type	MIG Welder
SKU	8727171
Part Number	WF-141GL
Brand	Weldclass
Packaging + Shipping	
Shipping Weight (Gross)	7.0 kg

The Weldforce WF-141GL is dedicated gasless MIG welder, packing a surprising amount of grunt and some features normally only found on bigger machines. Impressive 140 amps output, LCD displays and easy-to-use "synergic" controls... all in very compact and highly portable 6kg package. Welds up to 4mm steel plate, with very impressive arc control at low amps when welding thinner materials. Suitable for 0.8mm & 0.9mm gasless wire, with a side-loading wire feeder compartment for very easy spool replacement. Comes with 10 amp plug fitted, 2m torch, earth lead, drive roller for 0.8mm & 0.9mm wire and shoulder strap.

FUNCTIONS:

Gasless MIG

Ideal for use with 0.8mm & 0.9mm gasless wire mini-spools**

AT A GLANCE:

140A max output @ 15% duty cycle

Weld up to 4mm Mild Steel

Fitted with 10A 240V plug

KEY FEATURES:

Takes 1kg (D100mm) spools

Very Lightweight & Compact (only 6kg including torch & leads)

Digital Readout Displays

Easy-to-use controls

Fine adjustment dial for precise weld settings & excellent arc control at low amps, when welding thin materials

technology
What is Duty Cycle & How is it Calculated?
Using Generators to power inverter welders & plasma cutters
*Standard warranty 3 months, with 3 months extension if
registered at Weldclass.com.au/WeldforceWarranty **This
machine has been designed to operate best with 0.8mm
gasless wire. While 0.9mm wire can also be used, it should be
noted that 0.9mm requires up to 180-200 amps in some
applications, which is beyond the capacity of this machine.
