Part Number	150111
Barcode	743772164005
Brand	Jacquard
Size	21g
Technical - Main	
Colour Name	Carbon Black 640
Material	Resin Pigment
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Pearl Ex Pigments are nontoxic, inert powdered pigments that exhibit extreme colour fastness and stability. Ideal for interior, exterior and archival applications, they can be incorporated into any viscous medium, eg oil, acrylic, varnish, clay or they may be spread dry on any porous surface. Can also be used for Resin Art.

Our most versatile product yet, Pearl Ex Powdered Pigments may be used any time a metallic or pearlescent effect is desired: mix them into acrylics, oils, printing inks, encaustics, alcohol inks, epoxy, glues, casting resins, clay, varnishes—the list goes on!

Try it mixed with Gum Arabic for a DIY metallic calligraphy ink or watercolor, in the Pearl Ex Varnish for working on non-porous surfaces, or mixed into one of Jacquard's colorless extenders for use on fabric.

Pearl Ex is a safe, inert pigment that exhibits extreme colorfastness and stability. The different particle sizes produce different effects, from a smooth pearly luster, to a highly metallic sheen. Pearl Ex creates a metallic effect without being a real metal—it will never tarnish or fade!

Note: Pearl Ex Powdered Pigments were specifically developed as an art material. They are NOT for cosmetic use.

FABRIC/FIBER/SURFACES polymer clay, encaustics, paper, shrink plastic, leather, glass, canvas, wood, and more! Mix with a binder to use on natural and synthetic fibers.
