Workshop (Site) Info	
Power Supply Cord	0 mm
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The ROTEX RO 125. Lightens the load of your tool kit while increasing the range of applications. With just one tool for an extremely high material removal rate during coarse sanding. A super-fine image when fine sanding. And a perfect finish when polishing. When combined with the GRANAT abrasive, the ROTEX saves money thanks to the minimal use of abrasives. And with the appropriate mobile dust extractor, it even saves you the effort of brushing the work surface. And, since it is based on many ergonomic studies, the RO 125 with its compact housing and soft-grip gripping surfaces more or less incidentally fits perfectly in your hand.

### Main Applications:

- Sanding off old paint and varnish
- Sanding wooden materials
- Renovation work such as sanding steps
- Preliminary and coarse sanding of repair compound
- Hologram-free polishing
- Working on vertical surfaces

3 tools in 1

Coarse sander, fine sander and polisher in one tool. Just flip the switch to another setting and you're ready to go.

Protection for edges

Easy edge sanding with no kickback thanks to the pad protector.

Effective sanding pad brake

The sanding pad brake prevents the sanding pad from turning upwards. It prevents the surface being scratched during sanding and eliminates the need for rework.

Tool free pad changes

Simple, fast and safe. FastFix interface for changing sanding and polishing pads quickly without using tools. This means that you can respond to changing tasks and material requirements.

Comfortable to use

Ideal ergonomic grip positions and low weight, with smooth start up and constant speed under load.

Because clean is simply healthier

Clean workplace with the Festool mobile dust extractors. Compact and lightweight, ideal for assembly tasks and the perfect companion for the ROTEX RO 125.
