

TORQUEMASTER MAGNETISER/DE-MAGNETISER K5450 BY KINCROME

SKU	Option	Part #	Price
8727518		K5450	\$18.95

Model	
SKU	8727518
Part Number	K5450
Barcode	9312753086059
Brand	Kincrome
Dimensions	
Product Length	149 mm
Product Width	80 mm
Product Height	32 mm
Product Weight (Net Weight)	0.09 kg
Packaging + Shipping	
Shipping Weight (Gross)	0.09 kg

TorqueMaster ® represents decades of fastening innovation. Incorporating an innovative design that makes it incredibly easy to magnetise tools for better fastener holding or de-magnetise tools to reduce the risk of damaging sensitive electrical components. Over time the factory magnetic tips can wear off and become less effective until re-magnetised. If working in an environment with a lot of steel shavings or fragments (such as a machine shop) you can demagnetise your tools to prevent the fragments from sticking to the tool. The innovative design allows you to magnetise/de-magnetise larger tools that wouldn't normally fit into the holes of other magnetiser/de-magnetisers, and the test loop makes it really easy to test the magnetism of your tool before use. To Magnetise: Run the tool across the top surface (+) in the direction of the arrows and test. To De-Magnetise: Run the tool across the front surface (-) in the direction of the arrows and test. TorqueMaster ® - Fastening perfected. **Features:** Easily Magnetises and De-Magnetises tools
Incorporates test loop
