Type	Tape Measure
SKU	8727897
Part Number	MBT1787
Barcode	8803005002428
Brand	Komelon
Packaging + Shipping	
Shipping Weight (Gross)	0.55 kg

Komelon Powerblade II Tape Measures are inspected through the automatic manufacturing process to guarantee accuracy and workmanship. Komelon uses high grade carbon steel that ensures consistent and uniform blade thickness and hardness by their own developed cold-rolling process and heat treatment techniques. This provides durability that resists kinking and bending while using.

Komelon Powerblade II Tape Measures are constructed with deburred edges. Rough edges cause corrosion and rust but with the deburring treatment, it prevents the rough blade edges from early corrosion and cracking.

The scale is layered with a nylon coating to reduce wear and abrasion. Its special embossed finish enhances protection and reduces glare. The rust-resistant nylon coating covers the entire blade surface ensuring long-lasting readability and durability.

Komelon Powerblade II Tape features:

Powerblade for maximised blade durability

High visibility blade for easy reading on both sides

Impact absorbing rubber protects case and button
