The On-Board Dust Extraction Unit (DX14) is for use with the XGT 40V Max Brushless 28 mm Rotary Hammer (HR002G). The DX14 Dust Collection Vacuum Attachment features a HEPA filter engineered to capture 99.97% of dust particles for improved dust collection. The Dust Extractor Attachment is powered by a separate motor allowing the rotary hammer to consistently maintain peak drilling performance. The high capacity dust container is transparent and provides an accurate level indicator of collected material. The container captures concrete dust during drilling; activated by the tool and provides a 3 second delay to help capture remaining dust. With a filter cleaning mechanism where by turning the dial dust will fall from the filter. **Features:**
