Shipping Weight (Gross)	1.48 kg

GEARWRENCH offers a wide range of impact products in open stock & sets that are designed to deliver the performance and strength that the professional users require. They are made from chrome molybdenum alloy steel for exceptional strength and durability. Our sockets have a manganese phosphate coating to resist corrosion. The sockets also feature highly visible laser etched markings and a secondary size hard stamping. The sockets feature off-corner loading to reduce fastener rounding. The GEARWRENCH impact product family will allow the professional user to FORGE AHEAD.

### Features:

Flex socket design provides more access to fasteners in tight confines

Chrome molybdenum alloy steel (Cr-Mo) for exceptional strength and durability

Off-corner loading design for reduced fastener rounding

Manganese phosphate finish to resist corrosion

High-visibility laser etched markings provide quick size identification

Meets or exceeds ASME specifications

Includes tray for storage and organization

### Specifications:
