The MILWAUKEE® RED HELIX™ 29 Piece Cobalt Drill Bit Set is engineered for extreme durability and longer life in hard metal applications. The Milwaukee Cobalt drill bits are designed with a VARIABLE HELIX™ that includes an aggressive 35° Helix Angle which ends at 15°. The drill bits have QUADEGE TIP™ to decrease heat buildup and drill faster. The 135° split point tip delivers a precision start and prevents walking for fast, accurate holes in Hard Metal, PVC and wood. The tapered drill bits feature a new ENHANCED TAPERED WEB™ that strengthens the bit's core to increase flute durability. The cobalt twist drill bits are ideal for tough applications, providing up to 15X life vs. Black Oxide Drill Bits™. This set includes Imperial drill bits from 1/16" to 1/2".

### Features:

**135° Split Point Tip** - Drill bit starts engaging the material on contact for fast starts. Drill bit does not walk across material.

**Variable Helix™** - Provides a solution to cutting vs clearing material removal problem. Allows for fast and efficient material ejection to reduce heat.

**Chip Breaker™** - Splits up the size of the material from the cutting edge. Cools the material faster by breaking it into small pieces.

**Productivity** - Suitable for use in drills and impacts. Offers increased productivity when drilling and fastening.
