When you choose Makita Outdoor Power Equipment, you choose to be part of something bigger. Our complete line up of cordless outdoor solutions will revolutionise the way you work -empowering you with over a century of knowledge and expertise in crafting the world's most reliable tools. With the support of the world's largest 18V cordless system, you can be sure our outdoor equipment will get the job done and more -no petrol or cord needed.

The 191N47-0 (EM409MP) 330mm Straight Shaft Line Trimmer Attachment is the perfect addition to Makita's range of Multi-Function Powerhead attachments. Suitable with nylon line and plastic cutting blades, EM409MP provides a 330mm max cutting width, perfect for long grass and keeping edges maintained. The new narrow guard design provides a better line of sight to the cutting attachment and the grass being cut. Compatible with Makita's range of Multi-Function Powerheads, the EM409MP provides maximum power and performance for any task and weighing only 1.2kg, keeps the overall tool weight at a minimum, minimizing user fatigue

whilst working. **High Power** provides up to 7,100rpm to take on thick, tough grasses and shrubs. **Lightweight Design** weighing only 1.2kg as an attachment allows the total tool weight to be kept at a minimum to reduce user fatigue. **Nylon Head/Plastic Blade Use Only** not applicable with metal cutting blades but still provides the versatility to take on long grasses. **Lever Lock System** allows for quick installation and replacement of attachments minimizing hold-ups whilst working thanks to the toolless lever lock system. **Narrow Guard Design** provides the user with a better line of sight to the nylon head, leading to more accurate trimming.

Maximum cutting width of 330mm

Narrow guard can be used with nylon line and plastic cutting blades

No-load speed up to 7,100rpm

Lever lock system allows for quick installation and replacement

Compatible with DUX60 and EX2650LH
