

18V 1/2" FUEL MID-TORQUE IMPACT WRENCH WITH PIN DETENT BARE (TOOL ONLY) M18FMTIW2P12-0 BY MILWAUKEE

SKU	Option	Part #	Price
8728295		M18FMTIW2P12-0	\$499

Model	
Type	Impact Wrench
SKU	8728295
Part Number	M18FMTIW2P12-0
Barcode	4892210192165
Brand	Milwaukee
Technical - Main	
Anvil Size	1/2" Square with Pin Detent
Battery Voltage (V)	18V
Brushless Motor	✓
Dimensions	
Product Weight (Net Weight)	1.58 kg
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The M18 FUEL™ 1/2" Mid-Torque Impact Wrench with Pin Detent delivers access in tight spaces, up to 881 Nm of nut-busting torque, and maximum power to weight ratio. This battery-powered impact wrench weighs only 1.58 kg, making it extremely versatile, capable of performing a wide variety of applications. A POWERSTATE™ Brushless Motor provides the power needed to quickly perform many tasks, such as removing large bolts or lug nuts. The MILWAUKEE® 1/2" Mid-Torque Impact Wrench with Pin Detent is only 152 mm in length, providing users access to stubborn fasteners where larger impact wrenches cannot fit without needing to disassemble components to reach bolts. Tri-LEDs that surround the anvil to deliver the user brighter light with fewer shadows. 4-Mode DRIVE CONTROL offers enhanced precision with a range of pre-set RPM and IPM levels, selectable from a single button on the tool. By selecting Mode 4, Auto Shut-Off Mode applies no more than 48 Nm of torque for hand-tight fastening applications to prevent overtightening. Mode 4 also features Bolt Removal Mode, where the tool delivers full torque output, then decreases RPMs once the bolt is loosened to prevent fastener drops. REDLINK™ PLUS Intelligence electronics make these controls possible while ensuring maximum performance, protecting the tool against overloads, over-heating, and over-discharge. The M18™ REDLITHIUM™-ION battery pack (not included) fits all M18™

tools, delivering more work per charge and more work over the life of the pack. **Features:**

Pin detent locks sockets in place securely, especially while working overhead

POWERSTATE™ Brushless Motor delivers up to 881 Nm of nut-busting torque

4-Mode DRIVE CONTROL provides control over output speed and power

Auto Shut-Off Mode prevents over tightening and increases productivity by applying no more than 48 Nm of torque

Bolt Removal Mode delivers full torque output, then decreases RPMs once the bolt is loosened to prevent fastener drops

152 mm in length for maximum access in tight spaces

Tri-LEDs deliver high definition lighting to increase workspace visibility with less shadows

Works in up to 69kV environments

REDLINK™ PLUS Intelligence ensures maximum performance and protects from overloads, heating and over-discharge

Specifications:

Nut Busting Torque: 881 Nm

Fastening Torque: 746 Nm

IPM: 0 - 900 / 0 - 2,100 / 0 - 3,100 / 0 - 3,100

RPM: 0 - 1,250 / 0 - 1,950 / 0 - 2,575 / 0 - 2,575

Drive Control: 4-Mode with Auto Shut-Off Mode & Bolt

Removal Mode
