Take advantage of more power using 18V XR tools with FLEXVOLT ADVANTAGE technology. A unique electronic module with pack identification technology enables the tool to recognise when an XR FLEXVOLT battery is attached and unlock even more power. The DCS386 delivers up to 50% more power when paired with a DCB546 XR FLEXVOLT 6Ah battery versus a DCB184 18V XR 5Ah battery. The DCS386 has been equipped with a crank-type drive train for smoother, more efficient operation and reduced vibration, and delivers an impressive no-load speed of 3,000spm. **TAKE ADVANTAGE OF MORE POWER** A unique electronic module with pack identification technology enables the tool to recognise when an XR FLEXVOLT battery is attached and unlock even more power. **ALL THE POWER, NONE OF THE CORD** The combination of XR FLEXVOLT battery and brushless motor technology gives this reciprocating saw market-leading performance. Delivering 0-3,000 strokes per minute, it easily tackles applications normally undertaken with corded saws. **USER-FOCUSED FEATURES** Designed for efficiency and comfort, the DCS386 has a sculpted, ergonomic body and rear handle that reduces fatigue from prolonged use. It also features a two-position blade clamp for quick, safe, and easy tool-free blade changes. **Features:-**
