Brand	Milwaukee
Technical - Main	
Battery Voltage (V)	18V
Dimensions	
Product Weight (Net Weight)	1.9 kg
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The M18 FUEL™ HAMMERVAC™ 26 mm Dedicated Dust Extractor features an inline design engineered to connect directly to and be powered by, the MILWAUKEE® M18 FUEL™ 26 mm SDS Plus Rotary Hammer (M18FH). The M18FDEX utilises the same replaceable certified HEPA filter as other HAMMERVAC™ models to filter 99.97% of all particles greater than 0.3 m, for compatibility on the jobsite. The built-in adjustable depth stop and ruler offers easy and precise adjustments, with the ruler able to be swap sides of the extractor. The dust extractor allows for drilling up to 26 mm diameter and 152 mm depth. This extractor features an AUTOPULSE Filter Cleaning Mechanism that automatically cleans the filter after each use, ensuring effective drilling for longer before needing to empty the dust box. The translucent dust box comes equipped with a vacuum port that allows for no-exposure dust removal via a large vacuum or dust extractor (such as the AS30LAC). **Features:**  
Powered by M18 FUEL™ 26 mm SDS Plus Rotary Hammer (M18FH) once connected  
Includes two dust nozzles for drilling up to 16 mm holes and up to 26 mm holes  
Replaceable HEPA filter included, will not work without HEPA filter  
Captures 99.97% of all particles greater than 0.3 microns  
Translucent dust box allows users to see dust level  
Inline design for work in confined spaces
