

## 18V HIGH OUTPUT STAND AREA LIGHT / CHARGER BARE (TOOL ONLY) M18HOSALC-0 BY MILWAUKEE

SKU	Option	Part #	Price
8728471		M18HOSALC-0	\$698

Model	
Type	Light Stand
SKU	8728471
Part Number	M18HOSALC-0
Barcode	4892210194589
Brand	Milwaukee
Technical - Main	
Battery Voltage (V)	240V
Lumens	Up to 6,000
Runtime	Up to 10 hrs (M18HB8)
Dimensions	
Product Height	2130 mm
Product Weight (Net Weight)	9.5 kg
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The M18™ High Output Stand Area Light/Charger is designed to deliver users a lighting solution that adapts, performs, and survives on the jobsite. The tower light can be set up in seconds, to a maximum height of 2.1 metres and collapses to 1.2 metres for easy transportation and storage. The mast can be extended, increasing the Stand Area Light/Charger's height from 1.2 to 2.1 metres, letting users light up overhead work or minimise shadows when casting shine downward. The multi-directional light head allows users to orient the three independently pivoting light heads to cast light in several directions. With an integrated AC cord, users can plug in the light and charge any M18™ REDLITHIUM™-ION battery pack, or use the USB port to charge their devices on site, with convenient device storage when charging. For optimised control over lumen output and runtime, the M18™ High Output Stand Area Light/Charger has three output settings. Delivering up to 6,000 lumens, the M18™ High Output Stand Area Light/Charger illuminates large areas with TRUEVIEW™ High Definition light. **Features:** Provides up to 6,000 Lumens of TRUEVIEW™ High Definition Output

Three independent pivoting light heads

3 output modes for managing output or runtime

Integrated M18™ charging

IP34 rated

2.1A USB output for charging small electronic devices
