Milwaukee® HOLE DOZER™ with CARBIDE TEETH hole saws provide 50X life in extreme multi-material cutting applications when compared to bi-metal hole saws while cutting in high RPM. HOLE DOZER™ with CARBIDE TEETH hole saws can cut through stainless steel, cast iron, fastener-embedded wood, cement board, fiberglass, plaster and asphalt shingles with ease. The 3 TPI design provides fast cuts while deep gullets clear material fast while cutting. The All-Access slots feature solves the frustration of plug removal for less downtime and more productivity between holes. The latest slot design gives increased pilot visibility for accurate placement and faster chip ejection keeping cuts cool. The HOLE DOZER™ Thermoset anti-friction coating allows for cooler and faster cutting. The HOLE DOZER™ with CARBIDE TEETH hole saw has a cutting depth of 41mm, allowing clearance to handle cuts in a wide range of materials. Milwaukee® proudly makes HOLE DOZER™ with CARBIDE TEETH hole saws in the USA. This kit comes in a fully customisable case with interchangeable pegs that fits into Packout™ organisers.

Features:

Milwaukee® CARBIDE TEETH technology for 50x longer life in extreme multi-material cutting applications.

3 TPI design for fast cuts.

Deep gullets clear material fast.

All-Access slots for better productivity and increased accuracy.

Thermoset anti-friction coating for cool and fast cutting.

For the toughest applications where bi-metal hole saws cannot cut. Cuts stainless steel, fastener-embedded wood, cement board, fiberglass, plaster, asphalt shingles and more.

Made in USA.
