Features:

LPG BURNER - MAXFLAME KIT: Handle + 750mm Tube + ? 65mm Tip + 3m Hose + Cylinder Adaptor (Operates on full bottle pressure for max heat output/flame size)
 Industrial quality, European-made propane torch for heating and burning almost anything. Awesome heat output up to 500mj/h (475,000 BTU).
 Use 4/9/45kg LPG bottles with standard "POL" fitting. Heavy-duty handle with unique swivel connection eliminates hose torsion. Common 5/8" UNF hose connections for ease of repair.
 Used for; weed burning, metal & weld pre-heating, bitumen/concrete heating, line marking, roofing, water-proofing, heat shrinking & much more.
 Operates on full bottle pressure* for maximum heat output & flame size. Includes cylinder adaptor with excess flow safety valve. *typically 600-1400 kpa depending on ambient temperature
 Operates off standard LPG BBQ Bottle at full cylinder pressure (no regulator) for maximum heat output & flame size
 Very high heat output: Up to 500mj/h (475,000 BTU) & max flame length 1,200mm
 For applications such as weed burning, bitumen heating, etc where "full-force" flame is desired

SPECIFICATIONS
 Cylinder adaptor with safety valve
 3m hose with fittings
 750mm tube (total torch length 1,000mm)
 65mm tip - closed-bell style for resistance to flame-out, ideal for outdoor use
