Shipping Weight (Gross)	1.48 kg

Milwaukee ® SDS Max Ground Rod Driver are made from high grade, forged steel, providing up to 20% longer life. The SDS Max 13.3 x 260mm ground rod driver is an ideal solution for driving common ground rods for electrical circuits into soft soil. Designed to drive 13mm and 16mm diameter temporary and permanent ground rods, the SDS Max ground rod driver is a great tool for residential and commercial grounding applications. The SDS Max shank allows the ground rod driver to be used in SDS Max tools, providing an alternative to manual ground rod driving methods. The SDS Max ground rod driver is designed to work hammer only mode.

Features:

Ideal for driving 13mm and 16mm temporary and permanent ground rods for electrical circuits into soil.

Alternative to manual ground rod driving for increased productivity.

Forged high-grade steel construction for lasting durability and strength.

Tighter clearance prevents mushrooming on small diameter rods for efficient and easier grounding.
