The 18V Brushless 3/8" Impact Wrench is designed to suit the needs of manufacturing technicians, mechanics and fabricators. The DTW302 has an efficient Makita Brushless Motor providing high power in a compact design with 300Nm of maximum fastening torque. It features a variable speed trigger as well as quick trigger mode, which immediately engages full speed. The DTW302 provides the user with more control, with 4 stages of impact force enabling the user to set the appropriate torque for the application at hand, as well as forward and reverse automatic stop, with 6 modes for customized applications.

Features:

Variable speed trigger & Quick Trigger mode which engages immediate full speed

Forward & Reverse Automatic Stop, with 6 modes for customized applications

High power in a compact design with 300Nm maximum fastening torque

4 stages of impact force enables the user to set the appropriate torque for each application

eXtreme Protection Technology (XPT) provides enhanced protection against dust and moisture

Specifications:

Voltage: 18V

Maximum Capacity (Standard Bolt): M10 - M20

No-Load Speed:

Max: 0-3200rpm
