Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The M18 FORCE LOGIC Press Tool with ONE-KEY features an in-line design and brushless motor, enabling more run-time per charge and faster cycle times. Like all MILWAUKEE® press tools, the in-line design with a forward hand position allows for one-handed access and will fit nearly anywhere you can fit your arm. Equipped with REDLINK electronics, the cordless press tool also provides the highest level of press accuracy and reliability whilst being compact and lightweight for ease of use. The Auto-Cycle feature ensures a full press every time and the Prepress battery check prevents the tool from starting a press it can't complete. Being ONE-KEY enabled, data from every press can be uploaded to the ONE-KEY platform, accessible via desktop or mobile app. This allows for performance monitoring, remote tracking and provides the user with peace of mind in quality connections. With a 13mm (1/2") to 102mm (4") capacity, the press tool is a comprehensive press solution for plumbers and mechanical contractors.

Features:

Compact and lightweight in-line design for unrivaled access
Ability to press 13mm (1/2") to 102mm (4") pipe connections
Easy open jaw for one-handed use
Auto-cycle ensures a full press every time
Pre-press battery check ensures the tool won't start a press it can't complete
