Leather Care is a rich, nourishing, soft paste designed to penetrate dry leather and restore its suppleness. It contains beeswax and a citrus solvent, along with plant-based oil to create a water-repellent barrier. It is non-toxic and easy to use. Test on a small, inconspicuous area before full application to ensure you are happy with the finish.
Use For
All types of leather goods and furniture. Exception: not suitable for aniline or semi-aniline leather as the citrus solvent *may* disturb the finish.
