Scratch Cover for Furniture & Floors is ideal for colouring over scratches and is also useful for reviving timber that isn't in bad enough condition to merit stripping back. May also be used as a stain on raw timber to darken it.

It can disguise scuffs and scratches on bamboo and timber floors (including laminates). It is available in two shades: 'Light' for lighter timbers such as oak, blackbutt and pine; and 'Dark' for a variety of darker timbers such as jarrah, merbau and bluegum. If your floor is a combination of light and dark, the best choice is the Dark version.

### Use For
