Barcode	050596056568
Brand	Dremel
Technical - Main	
Material	Chrome Plated Steel
Packaging + Shipping	
Shipping Weight (Gross)	0.3 kg

Product description

Be ready for your demanding and extensive DIY project with the Dremel® Max accessory line. Designed by our engineers, the accessories provide maximum durability and lasting performance. The Max Life EZ545HP Diamond Wheel is engineered to last 3 times longer compared to the regular 545 wheel. The cutting wheel is completely coated with fine diamond particles to cut through hard materials.

What can you do with it?

Use with EZ402 EZ Lock Mandrel. The EZ545HP features a 38.1mm diameter and is designed with the exclusive EZ Lock system making accessory changes keyless, easy and fast: PULL - TWIST - RELEASE

Make cuts with the edge of the cutting wheels. We recommend using a (two-handed) golf grip when using this accessory. Let the accessory do the work without putting too much pressure on it or exceeding the maximum RPM to have the accessory last as long as possible. Are you in need to cut in a tight and awkward spaces? Use the Dremel® 575 Right Angle Attachment to get into these hard-to-reach places. Cut through 12.7mm thick floor tiles.

Materials to use on:

Hard materials, such as marble, concrete, brick, porcelain, ceramics, hard epoxy and soft and hard wood. Do not use on metals.

Recommended speed (RPM):

15.000-20.000
