Our Pipe Lock Level is the ideal solution to prevent dog legs in pipes and conduit when you are making multiple bends. The Pipe Lock Level features a 270 degrees of vial visibility and a non-removable thumb screw. The non-removable plated steel thumb screw features an e-Clip which prevents the thumb screw from becoming lost on the jobsite or in your tool bag. The Pipe Lock Level also features three machined surfaces to give you an accurate lock onto pipes and conduit, aiding in preventing dog legs. **Features:-**

- 270 degrees of vial visibility
- Non-removable plated steel thumb screw
- Machined surfaces help prevent dog-legs
- Compact size
