Brand	Milwaukee
Features	
Standard Inclusions	1 x 360 Pocket Level (48225102)
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The Milwaukee ® 360 Pocket Level offer users a compact, yet heavy duty alternative to current protractors and angle finders, while also functioning as a traditional pocket level for quick checks. Amplified Rare Earth Magnet Technology utilises magnetic circuits to redirect and focus the magnetic field for industry-leading holding power. Providing functionality similar to a protractor, a Locking 360 ° Adjustable vial secures the vial in place so users can identify and repeat any angle needed. A locking screw protects the accuracy of the vial whether it's taken in and out of pockets. SHARPSITE™ Vial Technology magnifies the bubble so it's easier to read, and the vial is engineered with high-impact acrylic for ultimate durability that will protect accuracy over the life of the level.

- Features:**
- Rotating vial allows users to set and identify any angle
 - Locking feature ensures all day accuracy at any angle while level is taken in an out of pockets
 - Amplified Rare Earth Magnets: 2X Holding power on metal jobsite material
 - Heavy duty die cast aluminium construction ensures maximum durability when dropped
