The M12™ TOUGHSHELL™ Heated Jacket is powered by M12™ REDLITHIUM™ battery technology and features an advanced heat technology system that combines lightweight and durable carbon fibre heating elements, enhanced fabric construction, and optimised interior liners to deliver heat for up to 8 hours runtime when used with M12™ REDLITHIUM™ - ION 3.0Ah Battery Pack. This new generation of TOUGHSHELL™ stretch polyester has been re-engineered to stretch and move as you work while being as tough as previous TOUGHSHELL™ jackets. This heated jacket has a unique battery pocket pass-thru design that is easy to use with front or back pocket battery placement, allowing you the versatility and comfort needed depending on the situation. This M12™ Heated TOUGHSHELL™ is a go-to for protection from the elements on the jobsite or when enjoying the outdoors. Product includes an M12™ Compact Charger & Power Source [M12TC-0]. **Features:-**
Up to 8 hours runtime when used with M12™ REDLITHIUM™ - ION 3.0Ah Battery Pack
TOUGHSHELL™ stretch polyester provides maximum life as well as wind and water resistance
FREEFLEX mobility gussets allow for enhanced movement
One-touch LED controller with three heat settings per heat zone
Adjustable cuffs and waist with drop tail extended back
Front or back pocket battery placement
