Shipping Length	1.35 m
Shipping Weight (Gross)	1.48 kg
Shipping Notes	This product is classified as 'Heavy / Oversized' and generally does not qualify for FREE SHIPPING.

The ULTRASTIK ® is the most fit for purpose Magnetic Pickup Tool on the market for picking up tie wire, nails, screws etc. from large surfaces such as suspended slab soffit formwork, concrete slabs and steel fabrication shop floors.

FASTER - halve your labour to complete the task as the 1.35 m Ultrastik (with it's patented quick release) is twice as fast as a traditional broomstick magnet.

SMARTER - Ultrastik's slimline 35 mm diameter head allows the strong magnet end to reach tight places! after use, pull and twist the handle and the strong magnet remains shielded! no more sticking to toolboxes or causing accidental damage to finished surfaces or electronic equipment!

SAFER - pull the handle only 25 mm and the wire/nails/screws drop off the stick without touching them by hand! the Ultrastik's ergonomic 1.35m length and 970 g lightweight also reduces strain injuries by reducing bending and the amount of body movement required for the task!!

Australian Made product, made in QLD.
