By harnessing the power, performance, and run-time of M18™ FUEL™ technology, the M18™ FUEL™ Random Orbital Polisher delivers corded performance while providing you with the freedom to work anywhere. This battery-powered polisher gives you total control with its variable speed trigger, 8-position speed dial with RPM settings ranging from 2,650-5,100 RPM, trigger lock-on button, and maintains speed under load. The M18™ FUEL™ Random Orbital Polisher frees you from the fear and frustration you may face in applications from surface damage or cord management. With over 50mm of battery clearance and proper use, you can rest assured that their work surface is protected from dents and scratches. The MILWAUKEE® M18™ FUEL™ Random Orbital Polisher provides the run-time necessary to keep professionals productive during polishing and heavy correction applications when paired with M18™ REDLITHIUM™-ION HIGH OUTPUT™ 6.0Ah batteries. This polishing tool is easy to use and comfortable for extended periods with an optimised center of balance and ergonomic design.

Features:

POWERSTATE™ Brushless Motor delivers 2,400-4,500 RPM with an 8-position speed dial and maintains speed under load gives the power to correct heavy defects. Frees you from cord management, maintenance, and the fear of surface damage with best-in-class clearance of more than
