Shipping Weight (Gross)	1.48 kg

The M12 FUEL Installation Drill/Driver Kit features 4 dedicated solutions, delivering unrivaled access and control with up to 34Nm of max torque. The four dedicated heads which includes a 3/8" Chuck, Offset Driver, a 1/4" Hex, and a Right Angle can attach in 16 different positions. This provides a 4-in-1 drilling and driving solution that is purposefully designed to reach uniquely challenging locations. The compact drill driver features a slim tool profile and an inline grip in the back of the tool that provides ultimate tool control and unrivaled access. The top of the tool is flat, allowing the tool to be placed flush against surfaces for additional access when needed. The front of the tool is equipped with a magnetic bit holder that securely holds multiple bits thus enhancing efficiency. These unique features combined with the tool's compact size and weight allows you to manoeuvre the multi-head drill/driver for maximum versatility and access hard to reach places. The modular drill/driver is equipped with a POWERSTATE Brushless Motor, delivering you with 1600 RPM and 34Nm of torque. This provides you with the necessary power for installation applications, especially in electrical, cabinet installation, HVAC, automotive, and remodel applications. The installation drill/driver features REDLINK Plus Intelligence which protects your tool from overloading or overheating. The compact cordless drill/driver is powered by our M12 REDLITHIUM battery packs, delivering
