Shipping Weight (Gross)	1.48 kg

The Milwaukee® Quick-Change Arbor No Wobble features a drive plate which is tightened up to the hole saw to eliminate wobble between the arbor and hole saw. It is made from hardened carbon steel and alloy steel for greater durability and has a 7/16" hex shank, which can be attached to any Quik-Lok™ 7/16" extension.

Features:

No Wobble: Adjusting nut mechanism tightening the hole saw onto the arbor to reduce any wobble.

Universal bi-metal hole saw fitment.

No adapters required.

Tool-free operation.

Made from hardened carbon steel and alloy steel.

Fits all hole saw sizes from 32mm onwards.

Fits all drill chucks ½" and larger.
