The Milwaukee AIR-TIP Dust Collector collects dust with its rubber seal that maintains suction to a wall for less cleanup time later. After connecting the dust collector to a wet/dry vacuum, it uses the vacuum's suction so users can attach it to a wall for hands-free work. Cut or drill above the funnel design while the vacuum is on to capture more debris. The rubber seal maintains suction throughout the application putting less dust in the air, on the ground and freeing up a hand that would otherwise be holding a vacuum nozzle. The AIR-TIP Dust Collector is compatible with other wet/dry vacuum brands with 32mm, 47.6mm and 63.5mm diameters (1-1/4", 1-7/8", 2-1/2").

Features:

Strong rubber seal: Maintains suction to a wall reducing clean-up time.

Use of suction: Allows for users to attach Dust Collector to the wall for hands-free work.

Multi-fit design: Suitable for all Milwaukee 240v, M12™ and M18™ vacuums along with major competitors / Compatible with other brand vacuums with diameter of 32mm, 47.6mm and 63.5mm (1-1/4", 1-7/8", 2-1/2")

Funnel design: To capture more debris
